
Welcome to our Shyneria
MOON MISSION
WELCOME ALL

The ladybug special force is first to arrive
on the moon for exploring.

Our new friends met us with excitement and joy.

They took us inside their beautiful cave crystal city.

A magnificent crystal castle is home to the queen.

We met the queen and she allowed us to
tour rooms in the castle.

First was a meeting room where we were shown all the beautiful crystals grown.

We saw a nursery full of cocoons.

We were able to observe the helpers learning all their techniques to grow crystals.

The crystal vineyards were charming
and dreamlike.

Once we entered the cave. MAGIC filled our senses.

We followed the colorful waters all the way to the bottom. Looking down into the water rainbows swirled and went on forever.

Exploration complete. Our friends load us up with crystals and water to help us care for our new friends in Shyneria.

CRATER MAKER
(MOON SURFACE TEST)

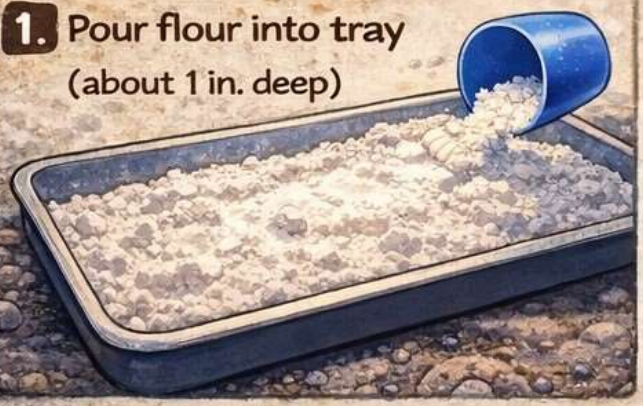

WHAT YOU'LL NEED

- ☐ Baking tray or shallow pan
- ☐ Flour (*base layer*)
- ☐ Cocoa powder
  (top layer for contrast)
- ☐ Small rocks, marbles or beads
  (for impact drops)
- ☐ Spoon
- ☑ Optional:
  Glitter or colored sand
  ☑ small toys / figures

HOW TO DO IT

1. Pour flour into tray
(about 1 in. deep)

2. Lightly sprinkle cocoa powder on top

3. Drop rocks from different heights

4. Observe the craters formed

Make Your Own Sparkly Butterfly!

A fun & sparkly craft to hang anywhere

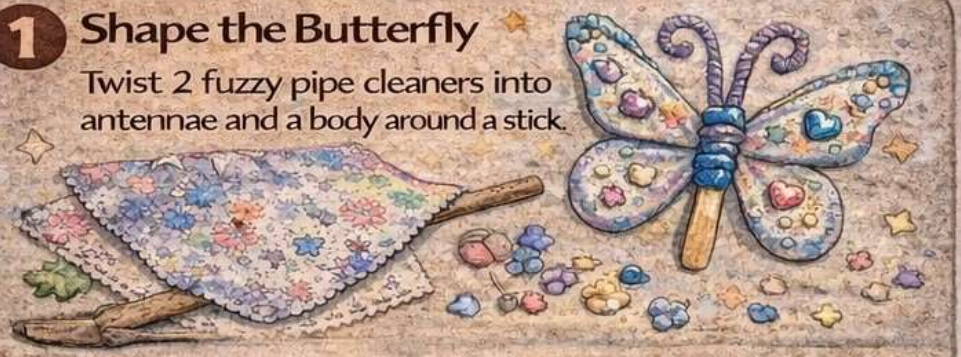

You'll Need:

- ☑ Pipe Cleaners (at least 2)
- ☑ Fabric & Glue
- ☑ Popsicle Stick or Pencil
- ☑ A stick or branch

1 Shape the Butterfly

Twist 2 fuzzy pipe cleaners into antennae and a body around a stick.

TIP: Twist extra tightly so it's secure.

2 Make the Wings

Cut 2 matching wing shapes from fabric.

TIP: Ask for help with glue and scissors.

3 Glue on the Wings

Glue the fabric wings onto the back of your butterfly.

TIP: Add extra fabric if needed to make it sturdy.

4 Decorate Your Butterfly

Decorate the wings with shiny stickers, gems and sparkies. Have fun!

TIP: Add extra fabric if needed to make it sturdy

5 Add a String & Hang It Up

Tie a string to the butterfly and add some beads. Now hang it up anywhere in your room!

Every time you look at it, you'll be reminded of your creativity!

Every time you look at it, you'll be reminded of your creativity!

Witness the Cocoon Change!

A quiet observation & life science experience

You'll Need:

- ☑ Butterfly kit or found cocoon
  "Look, don't disturb if unsure)
- ☑ Small mesh container or box with
- ☑ A stick or branch

1 Butterfly kit or found cocoon

Place your container somewhere quiet,
Add a small branch for the cocoon to hang.

This is their "quiet room."

1 Prepare the Space

Place your container somewhere quiet.

This is their "quiet room."

2 Place the Cocoon

Gently place or hang the cocoon.
Do not shake or move it once settled.

Stillness matters.

3 Wait & Watch

Check each day,
You may notice small changes in color or movement.

"Change happens slowly."

4 First Flight

Once wings are dry (a few hours), bring it outside and let it go.

"Everything knows when it's ready."

What You'll Notice:

- Patience
- Quiet transformation,
- A being becoming something new.

Shyneria Thought

"Not all changes need to be seen to be real."
