
Welcome to our Shyneria
TRADE FAIR
WELCOME ALL

Large carts in the small village are loaded for transport to Shyneria.

Heartfelt goodbyes are made. NOT forever goodbyes BUT some go off adventuring in new lands.

Upon arrival our new guests are struck by the beauty of Shyneria’s cave entrance.

Marisol meets new animals in Shyneria. She even spots an elephant from another land.

Shynerian children and Naru take Marisol on a tour. Excited to show off the crops.

The villagers happily accept and organize the gift of rice.

The children of Shyneria were thrilled to watch the elephants practice their new routine.

Such a busy day calls for a big lunch.
The children cannot wait to taste all
the new dishes!!

All sat in the sunlight enjoying the day and an agreement was declared!

At night, the villagers gathered to see the fireworks show put on by our new friends from China. All was a glow.

Large baskets were loaded for a new trip.

The baskets overflowing with abundance are transported with our friends from Africa.
